🌐 Kushan Jayathunga 🔄 KushanDB

Profile

A motivated and passionate undergraduate with strong interest in full-stack web development and a solid foundation in UI/UX design to craft user-friendly and visually appealing solutions. Eager to join a dynamic team to contribute to building impactful products, collaborate effectively, and continuously grow technical and creative skills. Driven by curiosity, innovation, and the desire to turn ideas into meaningful digital experiences.

Education

BSc. (Hons) in Computing & Information Systems 2023 – Reading
Sabaragamuwa University of Sri Lanka

G.C.E Advanced Level - Physical Science Stream 2017 – 2019
Ananda Sastralaya National School - Mathugama

Projects

University Sport Center Management System (Group Project) 2025 
PHP | Laravel | MySQL | Bootstrap
A web-based Sports Center Management System built to handle equipment borrowing, fine tracking, and inventory management efficiently.
Contribution : Developed the front-end and designed a simple, user-friendly UI/UX for smooth system interaction.

MindLink (Group Project) 2025 
Flutter | Firebase | Figma
MindLink is an AI-powered quiz app that creates interactive quizzes from study materials and tracks user performance in real time with accessing pre-made quizzes.
Contribution : Developed both front-end and back-end features and designed a simple, user-friendly UI/UX for a smooth learning experience.

Kolonna Store Track (Community Project) Ongoing
MongoDB | Express.js | React.js | Node.js
A web-based Store Management System developed for the Kolonna Divisional Secretariat to automate operations and manage inventory efficiently.
Contribution : Responsible for front-end development using React.js and creating the UI/UX design to ensure a user-friendly and efficient interface.

TrendHive (Individual Project) Ongoing 
React.js | Express.js | MongoDB | Node.js
Trend Hive is a full-stack eCommerce website where users can browse products, manage carts, and place orders, with an admin dashboard.

Livora (Individual Project)

2025

React.js | Tailwind CSS

Livora is a responsive real estate website that showcases property listings and offers an easy platform for users to explore and connect with developers.
